BRIDGING THE DIGITAL DIVIDE

In a world rapidly transformed by technology, the ONYR Foundation stands as a beacon of innovation and education for young minds. We are dedicated to dismantling the digital divide and unlocking the limitless potential of creativity through our comprehensive programs in basic computer skills, graphic design, digital engineering, and beyond.

At the heart of our mission lies the conviction that access to technology and digital literacy is not a privilege but a right.

Through hands-on learning, mentorship, and real-world application, we provide students with the tools, skills, and confidence to navigate the digital landscape and to transform their creative ideas into tangible outcomes.

BASIC COMPUTER SKILLS

Teaching basic computer skills is crucial for the ONYR Foundation because it lays the foundational stone for digital literacy, a necessity in today's technology-driven world.

FILE MANAGEMENT SKILLS

TYPING SKILLS

INTERNET NAVIGATION BASICS

This foundational knowledge not only boosts their academic performance but also prepares them for a wide range of career paths, ensuring they are not left behind in an increasingly digital future.

Moreover, it fosters confidence, encourages continuous learning, and equips them with the tools needed to contribute meaningfully to society, thereby bridging the digital divide and promoting equality in access to technology.

OPERATING SYSTEMS BASICS

WORD PROCESSING SKILLS

By empowering students with these essential skills, we open doors to a realm of opportunities, enabling them to navigate, understand, and leverage technology effectively.

EMAIL TRAINING

SPREADSHEET GUIDANCE

CYBER SECURITY

COLLABORATION TOOLS

GRAPHIC DESIGN PROGRAM

Graphic design opens up diverse career opportunities in various industries, from marketing and advertising to digital media and beyond. It also empowers students with digital literacy, an essential skill in today's technology-rich environment.

KEY GRAPHIC DESIGN TEACHINGS:

Design Principles

Vector Graphics

Branding

Color Theory

Shape Manipulation

Portfolio Building

Typography

Boolean Operations

Job Opportunities

Layers

Scaling

3D Design

Digital Image Files

Gradient Coloring

3D Applications

REAL WORLD APPLICATION

Students will get the opportunity to understand how their graphic design skills can be used in real world applications by creating merchandise that requires graphic designing. With these skills, they experience the roles of free lance graphic designers.

Y E S Y O U C A N

ENGINEERING DESIGN PROGRAM

With the comfort of navigating a computer, a comprehension of terminology used across all platforms, and a comprehension of graphic design; students will also have the skillset to comprehend and lead engineering design concepts.

KEY ENGINEERING DESIGN TEACHINGS:

Scale	Schematic Symbols	Project Management
Dimensions	Schematic Interpretation	Job Opportunities
Drawing Layouts	Construction Trade Schematics	3D Design
Layers		Mentorship
Digital Image Files		

REAL WORLD APPLICATION

WHAT IS AN ENGINEER?

A person who DESIGNS and builds.

Students will use their digital graphic trainings and experience the digital graphics in the construction space that involves Engineering.

Y E S Y O U C A N

ENGINEERING DESIGN PROGRAM

Students will observe the simple shapes that are used in engineering design, and feel a belief that they too belong in the engineering world. In the ONYR Foundation, we will provide metal framed shipping containers in which we will take on projects of designing, managing, observing, and experience the full life of a design to build process.

KEY ENGINEERING DESIGN TEACHINGS:

Scale
Dimensions
Drawing Layouts
Layers
Digital Image Files

Schematic Symbols
Schematic Interpretation
Construction Trade
Schematics

Project
Management
Job Opportunities
3D Design
Mentorship

IMPACT PROGRAM

Our students that are engaged in their design skills will be guided in areas to continue to gain more experience and confidence in their capabilities. We will develop a community outreach to research what projects that could utilize the skillset of design and project management here within our own program. This will present a resourceful tactic for obtaining funding and scholarship funds.

IMPACT PROGRAM Project Concepts:

Graphic Design-

Business Products/Merchandise

Business Productions

3D Printing Products

Engineering Design-

Low Income Construction DTB

Park Renovation DTB

Public Spaces DTB

Private Sectors DTB

****DTB-Design to Build**

KEY TEACHINGS IN THE IMPACT PROGRAMS:

Business Operations

Business Communications

Business Presentations

Planning

Budget Planning

Procurement

Project Life Cycle

Project Management

Project

Management

Job Opportunities

3D Design

Mentorship
